HV form 1: National Haemovigilance Office Initial Report Form

1. Patient Details

| Hospital: | Unique Incident | Gender Please | Male 🗆 | Age Please USE | Years | |
|-----------|--------------------|------------------|----------|----------------------------|--------|--|
| | Number | V | Female 🗆 | appropriate denominator | Months | |
| | | | | | Days | |

2. List unit numbers of components/products IMPLICATED

| | Unit Numbers |
|-------------------------------------|--------------|
| Red Cells | |
| Platelets Apheresis | |
| Platelets Pooled | |
| Solvent detergent (SD) Plasma | |
| FFP | |
| Cryoprecipitate | |
| Medicinal Products (please specify) | |

3. Other Details

| Date of transfusion | // | Time Transfusion Started | : am/pm | Date reaction noticed | // | Time reaction noticed | : am/pm |
|---------------------------|-------------|--------------------------------|------------|-----------------------------|------------------|-----------------------------|------------|
| Date error discovered | // | Time error discovered | : am/pm | Date error occurred | // | Time error occurred | : am/pm |
| Fluid balance Please 🖌 | e recorded? | Yes 🗆 No 🗆 | | | Volume transfuse | ed | mls |

4. Baseline observations prior to reaction

| Temp: | | Pulse: | BP: | | |
|-------|--|----------------------------------|------------------------|---------|--|
| prim | at is the patient's nary diagnosis? se 🗸 | Surgical Medical Obstetric | Oncology/Haem Other | atology | |
| | Details: | | | | |

| 6. | What was the reason for the transfusion? Please ✓ | Low Platelet Count / Platelet Function Deficit Haemorrhage Anaemia Plasma Coagulation Disorder | Ante Natal Post Natal Other | |
|----|---|---|-----------------------------------|--|
| | Details: | | | |

| IBTS/HV/FORM/001 | Ver | . 1 | Page 1 of 4 | |

| Date Received | | | | F | Risk Level | | Imputability | | | Signat | ure | | | | | |
|------------------|--|--|--|---|------------|--|--------------|------------------|-----------------|--------|-----|--|--------------------------|--|--|--|
| HV No | | | | | | | | QC No (if app | o: blicable) | | | | Recall No (if applica | | | |

7. Previous medical or surgical history?

| History Please 🖌 | Details |
|----------------------|---------|
| Surgical | |
| Medical | |
| Obstetric | |
| Oncology/Haematology | |
| Other | |

8. Transfusion History

| Year | Month | Outcome | Details |
|------|-------|---------|---------|
| | | | |
| | | | |
| | | | |
| | | | |

9. Pre-transfusion haematology values

| If red cells transfused state pre-transfusion Hb | Pre-transfusion PT | | |
|--|---|-------|------|
| If platelets transfused state pre-transfusion platelet count | Pre-transfusion APTT | | |
| If plasma transfused state pre-transfusion INR | Was Vitamin K administered? Please 🖌 | Yes 🗆 | No 🗆 |

10. Summary of Error/Omission

| | | | Minutes |
|---|-------------------|---------------------------------|---------|
| | Yes 🗆 | 12. Interval between commencing | Hours |
| 11. Was the transfusion an emergency? Please ✓ | No 🗆 Unknown 🗆 | transfusion and onset of | Days |
| chiefgeney: Thease a | N/A | symptoms | Weeks |
| | | | Months |
| Further interval information if necessary: | | | |

13. Symptoms present in the case of a reaction (tick and or record details in relevant boxes)

| Symptom | ✓ | Details | Symptom | ~ | Details |
|------------------|-----------------------|---------|-------------------------------|----------|---------|
| Temperature Rise | | | Fever | | |
| Urticaria | | | Chills/Rigors | | |
| Hypotension | | | Back pain | | |
| Hypertension | | | Sub-sternal discomfort | | |
| Tachycardia | | | GI symptoms, including cramps | | |

| Symptom | ✓ | Details | Symptom | ~ | Details |
|-----------------------|-----------------------|---------|--------------------------|---|---------|
| Bradycardia | | | Falling haemoglobin | | |
| Dyspnoea | | | Falling urinary output | | |
| Stridor / Wheeze | | | Haemoglobinuria | | |
| Cyanosis | | | Pain along infusion site | | |
| Falling O2 saturation | | | Restlessness/anxiety | | |
| Rising pCO2 | | | Other | | |
| Chest X ray changes | | | | | |

| 14. Has your supplying IBTS | Yes | If Yes, person informed | |
|---|-----|-------------------------------|----|
| Quality Assurance Department been informed? | No | If Yes , date Informed | // |

| 15. | HAs this report has been submitted to the NHO from another reporting establishment e.g. Irish Blood Transfusion Service or hospital? | Yes 🗆 | No 🗆 | | | | |
|-----|--|-------|------|--|--|--|--|
| | If Yes, state name of reporting establishment | | | | | | |
| | If Yes, what is unique incident number from that reporting establishment? | | | | | | |

Nature of Incident

| Serious Adverse Event | ✓ | Details |
|--|---|---------|
| Blood to wrong patient (if no reaction) | | |
| Incorrect ABO and Rh D group transfused (if no reaction) | | |
| Incorrect ABO group transfused (if no reaction) | | |
| Incorrect Rh D group transfused (if no reaction) | | |
| Transfusion of other incorrect antigen / incompatible antigen RCC (if no reaction) | | |
| Incorrect component/product transfused | | |
| Inappropriate transfusion | | |
| Failure to give an irradiated component | | |
| Failure to give CMV negative component | | |
| Transfusion of an incorrectly labelled component | | |
| Transfusion of expired component | | |
| Transfusion of incorrectly stored component | | |
| Transfusion of incorrectly distributed component | | |
| Failure to administer product (Anti D) | | |
| Delay in giving product (Anti D) | | |
| Other | | |
